Milton, ON · +1 647 883 2626 · nicolasruiz@gmail.com

PROFILE

Product leader across banking, fintech and enterprise technology in Canada and Latin America. I turn complex or stalled initiatives into working capabilities, align business and technology around clear product direction, use MVPs and incremental delivery to build trust, and create operating models that make successful delivery repeatable and remain in use after launch.

20 years
DELIVERY

9+ years
PRODUCT & AGILE DELIVERY

10 years
SAP CONSULTING

EXPERIENCE

Tangerine

Mar 2025 - present

Sr. Product Owner - Payments

- Own product and delivery across Tangerine's Payments transformation portfolio, coordinating Product, Technology, Architecture, Security, Operations, Finance, Fraud, AML, Scotiabank and external partners, with regular Director/VP alignment.
- Delivered VISA OCT for domestic and cross-border transfers, guiding a new team through incremental delivery, certification, operational readiness and production launch.
- Drive Payments Canada's Real-Time Rail (RTR) implementation, aligning roadmap, dependencies, release decisions, risk and production readiness across a multi-year modernization.
- Established reusable Payments governance, onboarding and knowledge practices, including centralized documentation and RTR Butler, a Copilot AI agent.

Scotiabank

Mar 2023 - Mar 2025

Product & Delivery Lead - Data & Analytics

- Built the operating model that enabled the first successful consolidation of retail data from nine International Banking countries after years of failed attempts.
- Used an MVP and incremental releases to prove value, earn stakeholders' trust to share data, and deliver consolidated KPIs for the first time.
- One report identified CAD 47M (4%) in expense-reduction opportunities for the F25 Plan and shareholder reporting. The model later expanded into Risk, Wealth and Commercial.

Technisys / SoFi

Jul 2021 - Feb 2023

Product & Agile Transformation Lead

- Designed and rolled out the organization's end-to-end delivery methodology across multi-country core-banking implementations, combining Agile, Lean, reusable standards and coaching for Product Owners and Agile Leads.
- Applied Design Thinking to redesign Discovery and create an estimation/risk model - cutting Discovery from 5 months to 2-3 weeks, reducing project costs by USD 30K/quarter and time/cost deviations by 50%, while improving early risk identification by ~60%.

NICOLAS RUIZ

Product Leader | Digital Delivery

EXPERIENCE / CONTINUED

Scotiabank

May 2017 - Jul 2021

Product & Delivery Lead - Retail CRM

- As Scrum Master, joined a high-potential team with strong leadership support and became instrumental in elevating its agile practice - through deep conviction and hands-on coaching - earning top-5 recognition among all agile teams at Scotiabank.
- On my own initiative, conceived and prototyped a next-generation CRM, then led its product vision - cross-channel lead management, AI-driven next best action, and customer-centric flows with full behavioural insights - years ahead of industry adoption. Secured CAD 3M in investment from Chile through executive roadshows, deployed in Chile and actively expanding across the region.

SAP Consulting

2006 - 2017

Business Consultant & CoE Supervisor

- Re-engineered procurement and reverse logistics at Claro Colombia - cut procurement times by 66%, saving \$750K USD/year in logistics and \$180K USD in warehouse costs.
- Built and led a high-performing SAP support team, growing CSAT from 70% to 90% and eliminating a 2-year open backlog within months.
- 10 years of ERP implementations across telecoms, pharma, food processing, and financial services in Argentina, Colombia, Peru, Mexico, Chile, and Uruguay - every project delivered successfully.

AI & EMERGING TOOLS

Use ChatGPT, Claude Code, Claude Design, and APIs to build applications, analyse information, and automate routine workflows. Projects include native iOS and web apps, financial dashboards built from raw files, and a health tool that interprets bloodwork and suggests next steps. Applied AI at work through RTR Butler, a Copilot agent supporting RTR knowledge sharing and user-story development. Also create executive presentations, images, and short-form video using AI tools, including Higgsfield.

CORE EXPERTISE

Product & Strategy: Product Ownership, product strategy, roadmapping, discovery, prioritization, Design Thinking, Lean, UX discovery, impact mapping

Leadership & Delivery: Digital delivery, program delivery, executive stakeholder management, cross-functional leadership, Agile, coaching, risk & dependency management
